

## THE COUNTRYHOUSE MISSION

Our Mission is to provide a safe, enriching and home-like environment; respectful, personalized care; and help those with memory loss find joy in the reality of the moment in which they are living. We pledge to support our familie by being their partners in care and helping them cope through every step of the way.

## OUR CORE VALUES

### PROFESSIONALISM

Individuals are responsible for bringing their best effort to the job every day; because the team excels when every member shines.

### INTEGRITY

We are honorable with each other at all times, behaving in alignment with shared dedication; because how we treat each other is the foundation for relationships built on trust.

### COMMITMENT

Our goal is to maximize resident well-being and do whatever it takes to make each day the best it can be; because providing extraordinary care sometimes requires heroic action.

### COMPASSION

Everyone deserves to be loved, and we make the world a better place by loving one another; because *treating people like family* means showing kindness and unconditional love.

## PHILOSOPHY OF CARE

**LifeCycles** is our signature whole-person Wellness Program. It embodies our Mission and Core Values, and provides a framework for helping people life as fully as possible within the four dimensions of wellness: Spiritual, Social, Physical and Intellectual. Built on a curriculum of the experiences we all have in common, LifeCycles transcends boundaries, challenges stereotypes, and creates meaningful connections between people of all ages.

CountryHouse is a member of the Agemark family of senior living communities that believe in **Treating People Like Family**
